

### **Field Trips/Field Studies**

Field trips of educational and/or cultural value may be taken by each grade during the academic year. Field Trips/Field Studies are integrated into the elementary curriculum to provide for hands-on learning enrichment and knowledge enhancement into Social Science and Language Arts Standards. All students are required to attend the Field Study. Students who can not participate in the Field Study will be assigned a project related to the unit of study.

(Locations are subject to change)
