

ITBS SCORES

Saints Felicitas & Perpetua Class of 2009

The charts below track the performance of our Class of 2009 in Reading and Math over the last four years. The standardized tests (Iowa Tests of Basic Skills – ITBS) measure how our students perform in relation to other students. Our students are tested each October as they begin a new school year. The height of the bar graph indicates the “Grade Equivalent” of their performance.

Each year, our students performed 1.5 to 2.5 years above their Grade Equivalent as they began the year.
